

CENTERVILLE DI

2020-21

CHALLENGE SEASON

3 WAYS DI WILL CHANGE (THIS YEAR) AND 3 WAYS IT WILL STAY THE SAME

3 WAYS DI WILL CHANGE (THIS YEAR)

- Teams will be able to meet and solve Challenges virtually.
*Centerville DI will follow the same guidelines as CCS. If school is held virtually, all teams will meet virtually. If in-person school becomes an option, DI teams **may** be able to meet in person.*
- The 2020-21 DI season will launch later than normal.
Technical, Scientific, Fine Arts, Service Learning, and Rising Stars Challenges, along with the Rules of the Road and Roadmap. will be released on November 1. Improv and Engineering Challenges will be released on December 1.
- Tournaments may be 100% digital or may incorporate an in-person celebration.

3 WAYS DI WILL STAY THE SAME

- Challenges will provide project-based learning in a competitive environment.
The Challenges will help kids with the 4 "Cs":
 - Creativity - *Kids blossom developing ideas that build on what they learn in school and in life.*
 - Collaboration - *Team members make all the decisions and even manage the budget.*
 - Communication - *Each child has a voice and space to develop unique abilities and talents.*
 - Critical Thinking - *Kids find new ways of seeing and doing as they solve STEAM -based challenges with their team.*
- Teams will compete and advance through Regional, Affiliate, and Global competitions.
- Kids will grow and transform.

DI offers an experience through which - as one parent told us - kids find their superpowers! Quiet children come alive performing. Kids who like things their way realize how much better their ideas are with input from their teammates. And if a child hasn't found his or her niche yet? No problem. DI introduces kids to a wide range of ideas, skills, and techniques while solving Challenges their way.

THE VALUABLE PHILOSOPHY OF DI WILL NOT CHANGE!

REGISTRATION OPEN

SEPTEMBER 23 THROUGH OCTOBER 9
